

June 1 2026

junk from my lunch
too many plastic containers by far
someone once told me if your recycling isn't clean
'they'll' send it straight to the landfill

I peel labels, wash the insides and put them in a blue bin.

like its not just garbage by another name
they're just going to replace the sandwich and
sushi from the grab n' go case.

two more plastic containers taking their place
Will they still recycle them if I didn't use soap?
